1

COMMUNITY FOR THE CITY

Your community is an exclusive space for your municipality. Here you will have all your communication channels, participation groups and your users.

2

INFORMATION CHANNELS

Create informative channels to inform your citizens of news, news or events that happen in the city. You can create them general or even by neighborhood.

3

INCIDENTS COMMUNICATION

Allow your citizens to communicate incidents of public roads by sending text, photos and location, through a very easy to use messaging interface.

4

PARTICIPATION GROUPS

It encourages citizen participation through groups that allow citizens to talk and discuss improvement proposals and aspects related to your municipality.

5

QUICK POLLS

Allow your citizens to answer quick polls on inquiries or improvements for your city. Obtain the results of the geolocated and segmented polls by gender and age.

6

PRIVACY

We preserve the privacy of users by not sharing their personal information and we do not market their data. Communications travel in a safe environment.

7

SHARE CONTENT

Share your community and groups easily with your citizens through social networks or other channels by sending invitation links. Or let them find the municipality's community from the Tellfy search engine.

8

ANALYTICS AND INTELLIGENCE

Access metrics and communications analysis of your city. More active groups, hours of use of your users, population segmentation, recommendations and much more.
