Download Tellfy now and improve your school communication.

1

ORGANIZED COMMUNICATIONS

Create all the groups you want within your community and organize them as you see fit. Efficient organization of all courses and classes.

2

SPECIFIC GROUPS

Create groups to report news on extracurriculars, excursions, festivals, activities, etc.

3

TYPES OF COMMUNICATION

Tellfy makes it possible to create groups with different characteristics according to the people you want to address: public, moderate, private, unidirectional groups and also private channels with families.

4

WEB MANAGEMENT

Tellfy allows you to send communications centrally from the web. Teachers can send communications easily without having the mobile application installed.

5

PRIVACY AND SECURITY

We preserve the privacy of your users by not sharing their personal information. The data is also not visible among community members.

6

SEND FILES

Share the school calendar, the daily menu, list of materials, images, videos and much more, with a click.

7

FAMILIES PARTICIPATION

You can create valuation polls to get to know the opinion of families or to make a decision between everyone quickly and easily. Or create an event and let the families to confirm their attendance.

8

IMPROVE THE RELATIONSHIP

Agile communication with students' families. Report all important topics, such as grades and attendance failures.
