

Organize and save time in the communication of your sports club

Organized

Create your community for your club. Create the groups of your teams. Share them with your users.

Effective

Public or moderate content. Instant notifications. Centralized management from the web.

Private

No user's personal data is shared. Information travels and is safely stored on our servers.

Request your Tellfy demo and discover how to improve your club's communications

1 CLUB COMMUNITY

Your community is an exclusive space for your sports club. Here you will have all your communication groups and your users.

2 TEAM GROUPS

Create the groups of your teams within your community. Designate the coach as the moderator and share them with the players and / or family members so that they can receive the communications.

3 NEWS CHANNELS

Create news channels for the club and allow members, fans and other stakeholders to access the information you post.

4 PRIVATE CHATS

Users of your sports community can talk privately with each other through a chat.

5 MULTIPLE CONTENT

You can create content of many types. Send text messages, pictures, documents, announcements, voice notes, events or surveys.

6 EASY ACCESS TO GROUPS

Members of your club can access to groups by searching for them within your club community or using a QR code. As an administrator, you can also include them in the groups you want.

7 CALLS

Send match calls and allow players to RSVP immediately. Manage possible absences in advance.

8 ANALYTICS AND INTELLIGENCE

Access metrics and analysis of your community's communications. Most active groups, hours of use of your users and much more.
